Summary

Skilled Full-Stack Web Developer beginning the journey into Web Development. Goal oriented with a diverse set of skills, looking to bring utility to a growing organization.

Skills

JavaScript, MongoDB, Node.js, HTML, jQuery, CSS, MySQL, Handlebars.js, GitHub, Salesforce, LexisNexis, Westlaw, JSTOR, Survey Monkey.

Projects

- **Movie Cheat Sheet:** Front end application created with colleagues using jQuery to make API calls. The function of the application is to have a user search a Movie or TV show and have a gif, poster, and information related to the search criteria. This application is also mobile responsive across all devices.
 - Link: <https://siricoa94.github.io/project-1/>
- **Burger Maker:** This application is designed to have a user name a burger with a state of “Devoured” or “Fresh”. The user is then able to change the state of the burger and watch it switch from one category to the other. This application was built on MySQL, Sequelize, and Express-handlebars.
